Session #4 cont.

3. (S/NF/SK) SUMMARY: Site is a building with a glass entrance, an emblem (round with points 'like a star') and guard personnel in grey uniforms. ~~At the entrance~~ At the entrance is a display of photos of scientific and technological achievements in satellite photography. The building has more than one level and there is a central staircase which branches off in two directions. There is something about this structure which supplies a feeling of 'closed in and dark'. ~~Below the building~~
Below the building, at a depth, ~~are two holes, under the~~ ~~large spaces~~ there is a feeling of open air, 'like a ventilation shaft'.
4. (S/SF/SK) FEEDBACK: Ops officer opined that source ~~had~~ had described the domed building (.2 km west of target) referenced in the tasking. ~~That that was not the target and that the~~ and next session with source RV-021 should ~~probably~~ achieve the target with little difficulty.
